

CHATEAU HAUT-BRION

Château Haut-Brion Blanc

1969

Château Haut-Brion's tasting notes :

This wine has a golden yellow color leaning towards orange, which is a classical evolution and can be likened to the evolution of sweet wines.

The nose is unusually complex with a mixture of white flowers, apricot and honey.

Despite its age, the wine still keeps some freshness thanks to a marked acidity which guarantees this vintage's longevity.

Weather conditions

Sum of temperatures: 3168 °C

Rain: 521 mm

Days where temperature above 30 °C : 18

Harvest : from 20/09/1969 to 30/09/1969

Current vintage notes

A normal year overall. July was hot and dry, August equally so, but on the other hand September was extremely rainy (206 mm. in 23 days of rain).
