

CHATEAU HAUT-BRION

Château Haut-Brion 1928

Château Haut-Brion's tasting notes :

A VERY GOOD YEAR

An astonishing wine, an extraordinary creation. Is it really possible to make this from grapes... Power, concentration, richness of structure. Today, it seems that our raw materials are different and it would be very hard to match this quality. A great example of the past.

Weather conditions

not available

Current vintage notes

Following a poor 1927, this year raised great hopes. There were many purchases of wine before it was even harvested. Weather was very good up until the harvest, but the fermentation was difficult because of high temperatures. Uneven results but with certain very prestigious wines (Latour).
