

CHATEAU HAUT-BRION

Château Haut-Brion 1929

Château Haut-Brion's tasting notes :

AN EXCEPTIONAL YEAR

Very dense color. The wine is powerful and extremely tannic. Good development in the mouth. Though very rich and complex, it is always dominated by tannin. Needs more time to mature.

Weather conditions

Sum of temperatures : 3267°C

Rain : 225 mm

Current vintage notes

A hot, extremely dry year, the driest since the start of the century. The juices were very concentrated and the wines characterized by an enormous richness of tannin. Wines slow to mature, but with exceptional structure.
