

CHATEAU HAUT-BRION

Château Haut-Brion 1937

Château Haut-Brion's tasting notes :

A VERY GOOD YEAR

A terrible hailstorm in June wiped out nearly all of the crop at Haut-Brion, and the quantity eventually harvested was very small. The wine is very concentrated, still powerful, but beginning to show the subtleties of old wine. Remains harmonious.

Weather conditions

Sum of temperatures : 3221°C

Rain : 382 mm

Current vintage notes

A very hot year with normal rainfall, one of the best vintages of the 30's. As a group, the wines are rather hard. There were many purchases of wine \sur souche\". That is before the harvest."''''
