

CHATEAU HAUT-BRION

Château Haut-Brion 1952

Château Haut-Brion's tasting notes :

A GOOD YEAR

In this bottle, all is harmony, roundness, perfection. The wine's breeding, always present, bequeaths a nicely melded tannin, giving the wine an agreeable and noble firmness. The taste on the whole is more generous than the bouquet.

Weather conditions

Sum of temperatures : 3270 °C

Rain : 306 mm

Days where temperature above 30 °C : 29

Current vintage notes

Everything started off for an extraordinary year: a very hot June (20.5 C), a very hot July (20.6 C) and a very hot August (20.6 C). But as it often is in Bordeaux, September makes the difference, and on the 4th the rain and cold began. It rained for 22 days. The result was a very good vintage but not a great one.
