

CHATEAU HAUT-BRION

Château Haut-Brion 1953

Château Haut-Brion's tasting notes :

A VERY GOOD YEAR

A very good harvest at Haut-Brion. The wine is supple, elegant and vinous. On the palate, it is very tasty, long and harmonious, still with plenty of fruit. An excellent wine that can age even more.

Weather conditions

Sum of temperatures : 3198 °C

Rain : 367 mm

Days where temperature above 30 °C : 27

Harvest : from 29/09/1953 to 12/10/1953

Current vintage notes

This is an August vintage, which was a fabulous month, boasting 15 mm of rainfall and 15 days above 30°C (86°F):. The September weather was more inclement and the harvest was marked by rain. Excess heat was even feared, leading some to talk of the wine being overheated... Yet, there were plenty of great wines for this vintage.
