

CHATEAU HAUT-BRION

Château Haut-Brion 1954

Château Haut-Brion's tasting notes :

A LESSER YEAR

Half of the production was declassified and only 4,000 cases were bottled as Haut-Brion. The wine however is very fine and remarkably well-matured. A bottle with elegant charm and breeding. Notes of roasted, even burned grapes, very interesting considering the vintage.

Weather conditions

Sum of temperatures : 2904 °C

Rain : 311 mm

Days where temperature above 30 °C : 6

Harvest : from 07/10/1954 to 18/10/1954

Current vintage notes

A very cold and relatively rainy year: July was 3° C below normal, August 2° C below. One of the coldest years since the beginning of the century. Poorly proportioned wines in Bordeaux, which were quickly forgotten.

Domaine Clarence Dillon
