

CHATEAU HAUT-BRION

Château Haut-Brion 1955

Château Haut-Brion's tasting notes :

A VERY GOOD YEAR

"I have tasted the wines of Haut-Brion, and am satisfied. They are sound, with good color, smooth and natural in style... Very good wines comparable to the 1949", noted Daniel Lawton Sr., on November 1st. The wine is marvelous today. A very great harmony in which all tastes have melted together. Nothing overpowers, all is charm and perfection.

Weather conditions

Sum of temperatures : 3247 °C

Rain : 375 mm

Days where temperature above 30 °C : 19

Harvest : from 28/09/1955 to 10/10/1955

Current vintage notes

A happy year. Vineyards throughout the region were particularly beautiful, noted Daniel Lawton Sr., on August 28th. In fact there was just the right amount of water in July. August was very hot and very dry. September was very dry. Ideal harvest conditions, and everywhere the wines were a success, In September, Lafite sold 100 tonneaux at 5,000 Francs \sur souche\". (before harvest.)""
