

CHATEAU HAUT-BRION

## *Château Haut-Brion 1962*

Château Haut-Brion's tasting notes :

A GOOD YEAR

Very attractive wine, still full of youth and great richness. Ample, firm, very long and with enormous complexity. A great bottle, for which we must still wait.

Weather conditions

Sum of temperatures : 3123 °C

Rain : 249 mm

Days where temperature above 30 °C : 18

Harvest : from 01/10/1962 to 15/10/1962

Current vintage notes

An example of a rare occurrence: a good year that gets off to a late start. The coloring of the grapes began on August 22nd and the harvest took place in October. June was dry, July normal, August dry, September near normal. This year suffered from its proximity to the great year of 1961, but the 62's are very good, and they were slow to come around.
