

CHATEAU HAUT-BRION

Château Haut-Brion 1963

Château Haut-Brion's tasting notes :

A LESSER YEAR

In spite of some promise in its first years, the wine has evolved in unreliable fashion. The impression of unripe and spoiled fruit overpowers any sense of nobility and breed.

Weather conditions

Sum of temperatures : 3010 °C

Rain : 370 mm

Days where temperature above 30 °C : 7

Harvest : from 03/10/1963 to 16/10/1963

Current vintage notes

A bad year-cold and rainy. Few wines were chateau-bottled. Total production: 4.98
