

CHATEAU HAUT-BRION

Château Haut-Brion 1969

Château Haut-Brion's tasting notes :

A LESSER YEAR

Colour quite evolved. Interesting and complex flavours. The wine is elegant with a very nice balance, harmonious from every angle. The finish is fine and sweet. A very good example of an average vintage which has aged very well.

Weather conditions

Sum of temperatures : 3168 °C

Rain : 521 mm

Days where temperature above 30 °C : 18

Harvest : from 25/09/1969 to 04/10/1969

Current vintage notes

A normal year overall. July was hot and dry, August equally so, but on the other hand September was extremely rainy (206 mm. in 23 days of rain). Everything started out well, but the great vintage was destroyed in September. The wines, in the region overall, seem just a little bit washed out.
