

CHATEAU HAUT-BRION

Château Haut-Brion 1990

Château Haut-Brion's tasting notes :

AN EXCEPTIONAL YEAR

The wine is not as supple and velvety as the 89. Its structure is, more of a classic vintage. Comparable to the 88, showing complexity, finess and elegance which define Haut-Brion's great years.

Weather conditions

Sum of temperatures : 3438 °C

Rain : 291 mm

Days where temperature above 30 °C : 32

Harvest : from 04/09/1990 to 28/09/1990

Current vintage notes

A warm winter so an exceptionally early budding. The start of spring was cold but summer was exceptionally hot and dry. Little rain in September allowed an abundant and very healthy crop.
