

## CHATEAU HAUT-BRION

PREMIER GRAND CRU CLASSÉ EN 1855

### 1993 Vintage

#### The Climate

A warm spring brought on early budding. Through June, the weather was very good. The flowering was uniform. After a bout of cold weather August was pretty warm. August makes the must is a local adage. The grapes were remarkably healthy and ripened well. The rainy weather with one or two storms did not affect them at all.

#### Some Technical Information

Harvest dates From September 7<sup>th</sup> to 14<sup>th</sup>
